

8/8/79

On 8/6/79 I was advised by Tom Germani  
that he was told the pit on the Diamond Head  
property went to ~~sawed~~ a cove than to navigable  
waters, thereby coming under federal jurisdiction.

I approved P. Elliott acting Branch Chief to  
have someone go out to the field with me to make the  
measurement. Activation of the reservoir fund may be  
necessary. Paul advised pass it on to the State  
since they do not have to prove navigable water (?).  
I reported it to John Vernon.
